

This week we begin a
4 part series called: **GUARDRAILS**

Just like the guardrails we see on the roads we drive every day, the guardrails we place in our lives are designed with a simple purpose; to create a small accident to protect us from a larger one. Guardrails protect us on the road, when we establish them in our lives, they can help protect us and direct us. Most likely our biggest mistakes in life could have been avoided if we had guardrails steering us in the right direction. The goal should never be to see how close we can get but rather to keep us from ever going “too far,” in the wrong direction.

Look forward to seeing you Sundays, 11am in the Warehouse
